

**AVALANCHE®**

# **UNDER TAILGATE FOR DUMP TRUCKS SPREADER**

Now **Avalanche®** enables you to spread salt and sand without expensive hydraulic conversions. Choose a model with either electric or hydraulic American-made motors. The spreader is designed to fit 96 inch dump bodies. It's equipped with a self levelling spinner assembly, and a hinged cover protects the spreader during normal dumping. An in-cab variable speed control is standard equipment on electric models. Choose between carbon and stainless steel.

**You Never Regret Buying Quality**

# Dump Truck Under Tailgate Spreader

## Key Features:

- American-made motors and gearbox
- Choice of 12V DC or hydraulic power
- In-cab variable speed electronic control for auger and spinner is standard equipment on DUTS-E and DUTS-SS-E models (Hydraulic controls not included with DUTS-H and DUTS-SS-H models.)

## Benefits:

- Keep your existing dump body
- Low entry cost
- By choosing electric power you avoid an expensive hydraulic conversion, saving you thousands of dollars

## Questions:

- What's the warranty? **1 year**
- What's the spread pattern? **20 feet**
- How long does it take to install? **4 hours**
- How much maintenance should I expect to do? **Minimal**
- What's the turn around time on replacement parts? **Expect 3 to 5 business days with standard ground freight.**

**1** Electric motor model

**2** Dual flight auger

**3** Self levelling spinner assembly

**4** Variable speed control

Model	Description	Controls	Auger Flight	Weight	Warranty
DUTS-H	Carbon Steel with hydraulic motors	Optional	Dual	450 lbs	1 Year
DUTS-E	Carbon Steel with electric motors	Variable speed included	Dual	495 lbs	1 Year
DUTS-SS-H	Stainless Steel with hydraulic motors	Optional	Dual	450 lbs	1 Year
DUTS-SS-E	Stainless Steel with electric motors	Variable speed included	Dual	495 lbs	1 Year
